TOOL BOX TALK
April 3, 2023
DOT Medical Cards

Gray & Son CDL and Non-CDL drivers will need to go to the following Health Care Facilities for their DOT Medical Cards. The health requirements to drive a truck are becoming very stringent. If you have any questionable issues, make sure you take the proper documentation with you. You will also need to call each facility to make an appointment. After you make the appointment, call the Safety Dept. so that we can give you an authorization form. All drivers will use these facilities: Get your hearing test at the same time.
